Gather at 10:30 am
Program at noon

**WORKING PEOPLE'S
DAY OF
ACTION**

02.24.18

On February 24, join us for a national **Day of Action** in Columbus and cities across the country to show support for strong unions.

We will join thousands of working people and our allies to stand up for our right to organize and to show how strong unions benefit all of us.

Strong unions play a vital role in the fight for equitable pay, affordable health care, quality public schools, and making sure the future is secure for everyone.

It's time to end a system that's rigged against working people.

Now wealthy special interests and ideological extremists want to rig the system further through a Supreme Court case called *Janus v. AFSCME Council 31*.

This case is another attempt to limit the power of working people by weakening unions that give workers a powerful voice in advocating for themselves, and in OEA's case, the students that we serve, their families and their communities.

Just as we proved in overturning Senate Bill 5, when we join forces and stick together, WE ARE UNSTOPPABLE!
